Swap, Shift, and Skip your way to Victory!

Three actions are all you need to master in this quick to learn party game. Swap, Shift or Skip in order to collect the lowest value card on the table. Stay away from the high value cards because the higher the value the more you drink.

Sounds easy, right? I guess I should mention you only know the value of your card and you'll have to come up with clever ways to figure out everyone else's. Do you trust your friends? You'll need to outlast them through fast paced rounds where each player moves closer and closer to being eliminated.

First player to go over 20 points or turn over 'The Card of Death' loses.
